

**Course Name –
EDA PROJECT**

**Course Code -
INT-353**

Continuous Assessment-I

1.Domain/Topic knowledge:

Begin by researching and studying the domain or field to which your dataset is related. Understand the key concepts, terminology, and challenges specific to that domain.

2.Data Understanding:

Specify all the information your dataset contains.

3.Reasons: Why you choose that dataset?**4. Questions for Analysis. (ATLEAST 20 Qs).**

Evaluation		
S. No.	Topics	Marks
1	Domain Knowledge	10
2	Data Understanding	5
3	Reason (Dataset)	5
4	Questions	10
Total		30
